

## MANUAL INTERNAL LINEUP CLAMP

- Toggle action puts maximum power on pipe
- "Gap" is unobstructed for fuller stringer bead
- Heavy duty jack box puts more power on the pipe with less operator effort
- Each clamp machined for specific wall thickness and pipe O.D.
- Available with copper back-up ring
- Standard 6" to 60"

## HYDRAULIC INTERNAL LINEUP CLAMP

- Easy to operate
- Requires no outside power unit
- Precision manufactured, field proven
- Each clamp machined for specific wall thickness and pipe O.D.
- Heavy duty all steel construction
- Standard 16" to 60"
- Available through 100"

- Optional hard or soft wheels
- Stainless steel, copper or carbon steel shoes
- Available with copper backup ring
- 1 year warranty

INTERNAL LINEUP CLAMPS			
SIZE	DESCRIPTION	WEIGHT	
in		lbs	kg
6	Sm. Manual Internal Clamp	120	54.4
8	Sm. Manual Internal Clamp	126	57.2
10	Lg. Manual Internal Clamp	163	73.9
24	Lg. Manual Internal Clamp	339	153.8
30	Lg. Manual Internal Clamp	420	190.5
36	Lg. Manual Internal Clamp	595	269.9
16	Hydraulic Internal Clamp	310	140.6
24	Hydraulic Internal Clamp	385	174.6
30	Hydraulic Internal Clamp	466	211.4
